

MEMBER'S CHOICE®

credit life and disability insurance

Planning for your future is about making the best choices for you and your family – whether it's improving your standard of living or protecting your financial future.

Protecting your financial future

Choosing to take out loans to buy a new car, finance a special vacation, or renovate your home are ways you improve your standard of living. And, planning your family's financial future by protecting your loans with credit insurance can help your family keep its standard of living if your income is reduced or eliminated due to a disabling injury or illness or your unexpected death.

Protection that pays

Your unexpected disability or death can affect your household's income level and change your family's standard of living in an instant, making household financial commitments difficult to meet. Coping with your disability or death can be emotionally and physically stressful for your family. Struggling to make loan payments on a reduced or lost income is another heavy burden your family shouldn't have to bear. When you choose to protect your loans with MEMBER'S CHOICE® Credit Life and Credit Disability Insurance, you're planning for your family's financial future.*

With payment protection like MEMBER'S CHOICE Credit Life Insurance, if you pass away and your claim is payable, your eligible loan balance is reduced or paid off. With MEMBER'S CHOICE Credit Disability Insurance, if you're disabled due to injury or sickness, your loan payments will be paid until you're no longer disabled, your loan is paid, or you reach the policy maximum.*

MEMBER'S CHOICE Credit Life and Credit Disability Insurance help conserve your family's savings and allows them to use other insurance funds to meet day-to-day living expenses, preserving the standard of living you worked so hard to achieve.
